Experience

FULL-STACK DEVELOPER, QUALIDADE INTELIGENTE; SÃO PAULO, SP – 2021-2023

Led the redesign and development of the institutional website, implementing Email APIs to boost client engagement and conversions.

Developed a productivity-enhancing calendar management application in NextJs, with Typescript, utilizing robust database systems and APIs, resulting in a 40% increase in team efficiency.

These developments highlight my proficiency in full-stack development, web design, and database management, showcasing my ability to drive operational excellence, with tech innovation.

FREELANCING WEB DEVELOPMENT AND DESIGN, SELF-EMPLOYED – 2019-PRESENT

Crafted custom Python web scrapers capable of collecting and analyzing data, presenting it in an sleek format. These tools empowered clients with valuable insights.

Designed and developed Python video downloaders for websites, such as online courses, enabling users to save content for offline access.

Created multiple converting websites and landing pages, using different technologies that effectively drove user engagement and achieved client goals.
